Dear Ms. Kemp,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. Your email will become a part of ND-2015-20-E - Duke Energy Carolinas: Foothills Transmission and Substation Project- 45-Mile Transmission Line Between Asheville, NC, Power Plant and New Substation Near Campobello, SC, and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Coordinator

**Subject:** Duke Power Project

Please count me among those who passionately oppose the proposed Duke Power substation and transmission lines located in Spartanburg County. It is docket number ND-2015-29-E. In no way does SC benefit from this project. It is to be in an area unique in the country for its string equine based economy so strong that neighboring Polk County was chosen for the International Horse Park which intends to be the finest in the world. The impact of these lines and the substation on this area is worst than any natural disaster. We could recover from that but we can NEVER recover from this Duke project. Please do not approve it at all.

Rebecca Kemp
